**"To say that Dole will betray conservatives is hardly even a prediction. It's virtually a tautology, a deduction from the definition of Bob Dole. My advice to conservatives is not to waste a vote on a man who will win or lose without it, and in either case won't deserve it. Phillips does deserve it, and every vote he gets this year will help build something for the future."**

Joseph Sobran, *The Wanderer*, August 29, 1996
